

Norway Elementary School Online Courses Available via Math Seeds and Moby Max

Innovative Learning Options for Norway Elementary School

The courses below are designed to help us better meet the needs of all students and their families.

Please keep in mind that these courses can be enrolled in if parents and administration agree that an online option is in the best interest of the pupil. A counseling session with our online learning expert and a highly qualified instructor is a good first step to determine if this is an appropriate choice for your family. Please feel free to call the office to set up an appointment to discuss these options further.

Please keep in mind that essential courses in Math, Science, Social Studies, and Language Arts must be taken together per state law with the exception of Kindergarten. Elective courses are available both on-site or online and can be taken in any combination or by themselves.

Kindergarten Offerings

****All Kindergarten courses are considered non-essential. Parents can select any combination of these courses for their students if it is deemed in the best interest of the pupil****
